## Legal Notice

---

*This information was prepared by Gas Technology Institute (“GTI”) for DOT/PHMSA (Contract Number: DTPH56-06-T-0004).*

*Neither GTI, the members of GTI, the Sponsor(s), nor any person acting on behalf of any of them:*

- a. Makes any warranty or representation, express or implied with respect to the accuracy, completeness, or usefulness of the information contained in this report, or that the use of any information, apparatus, method, or process disclosed in this report may not infringe privately-owned rights. Inasmuch as this project is experimental in nature, the technical information, results, or conclusions cannot be predicted. Conclusions and analysis of results by GTI represent GTI's opinion based on inferences from measurements and empirical relationships, which inferences and assumptions are not infallible, and with respect to which competent specialists may differ.*
- b. Assumes any liability with respect to the use of, or for any and all damages resulting from the use of, any information, apparatus, method, or process disclosed in this report; any other use of, or reliance on, this report by any third party is at the third party's sole risk.*
- c. The results within this report relate only to the items tested.*

## Results and Conclusions

---

### **TASK 4: Root Cause Analysis**

- GTI completed visual examinations from a group of field failure samples.
- GTI is making progress towards completing the final task report.

### **TASK 5: Slow Crack Growth**

- GTI continued to analyze background laboratory test data on plastic pipe specimens.
- GTI continued compiling the reviewed data into the final task report.

### **TASK 8: Project Management Activities**

- GTI completed the quarterly report.

### **TASK 9: S-4 RCP Testing**

- GTI completed critical temperature testing of 6" SDR 11 Medium Density PE2406, 6" SDR 11 High Density PE3408, and of 6" SDR 11 PE100.

## Plans for Future Activity

---

- GTI will complete the Root Cause Task Report.
- GTI will complete the Slow Crack Growth Task Report.
- GTI will continue critical temperature tests on the remaining materials.

Respectfully Submitted,

Julie Maupin
